

## MHD Reference Materials 3: Preliminary Word Lists (Not Including Proper Names)

## Matthew Looper

Department of Art and Art History, California State University Chico

This report consists of four tables that provide preliminary lists of words in the Maya Hieroglyphic Database (MHD) with approximate brief English glosses. **Table 1** lists 1874 Classic period (i.e. non-codical) terms sorted by Mayan; **Table 2** is Classic vocabulary sorted by English gloss. **Tables 3** and **4** are the equivalent word lists for the 560 items contained in the codices. All proper names have been removed and are listed in Report 74. In the MHD online, these lists can be generated using the 'Word List' menu, by selecting 'Classic non-names' or 'Codical non-names'. Combined lists can also be generated with this menu by choosing 'All non-names'.

Note that these are not proper dictionaries, but simple lists of unique words that can be queried in the MHD (mayadatabase.org) in the fields: *blmaya1*, *blengl*, *grmaya*, and *grengl*. Details regarding orthography and other conventions can be found in the MHD online.

Glyph Dwellers is an occasional publication of the Maya Hieroglyphic Database Project at California State University, Chico, California. Its purpose is to make available recent discoveries about ancient Maya culture, history, iconography, and Mayan historical linguistics deriving from the project.

Funding for the Maya Hieroglyphic Database Project is provided by the National Endowment for the Humanities, grants #RT21365-92, RT21608-94, PA22844-96, the National Science Foundation, grants #SBR9710961 and IBSS1328928, the Department of Native American Studies, University of California, Davis, and the Department of Art and Art History, California State University, Chico.
